CO$_2$ Emission

1 INTRODUCTION

Overview

An overview is a general summary of something. An overview gives the big picture, while leaving out the minor details.
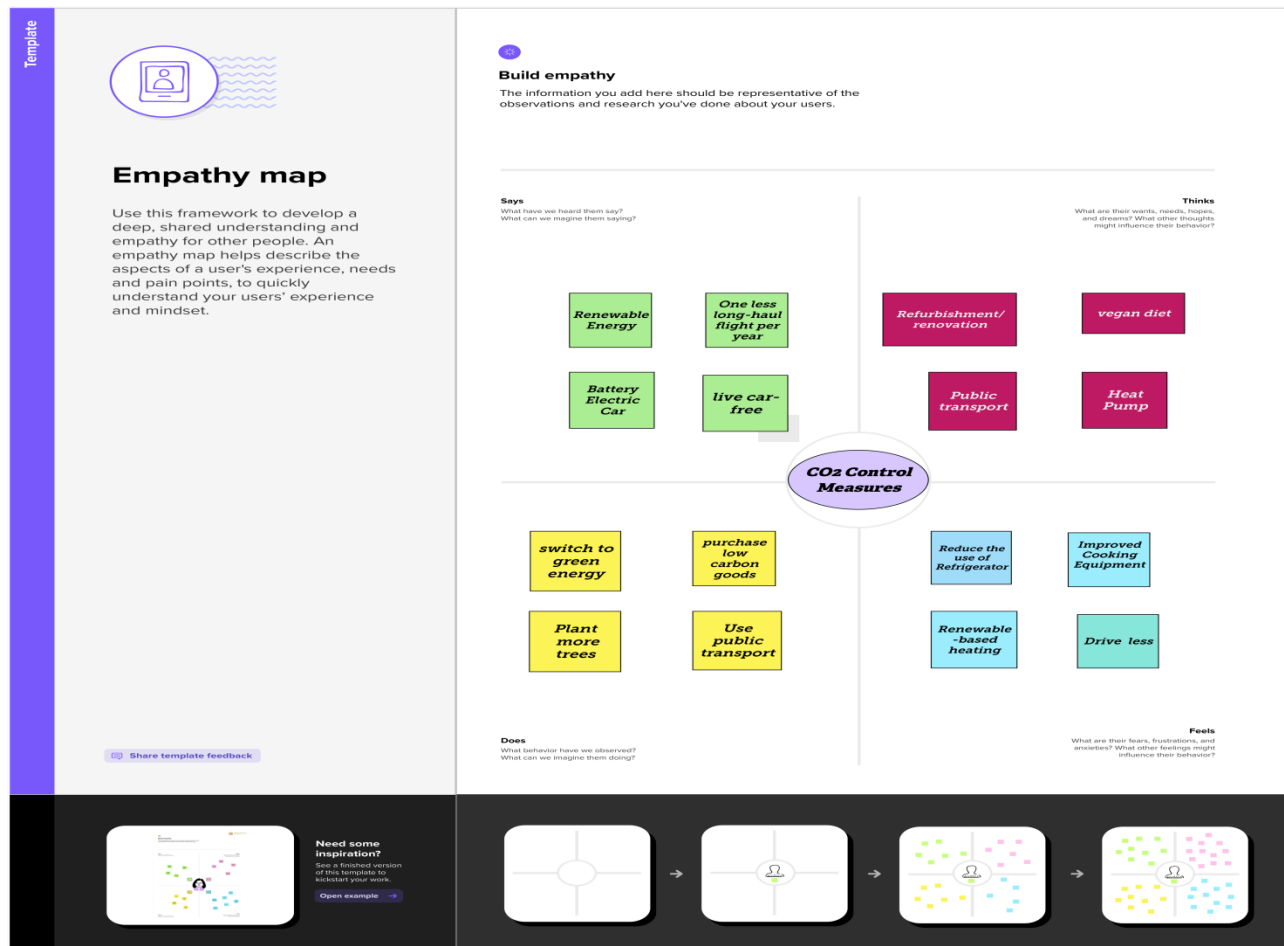

Purpose

 Purpose is the end for which something is done, created or for which it exists. It is part of the topic of intentionality and goal-seeking behavior.
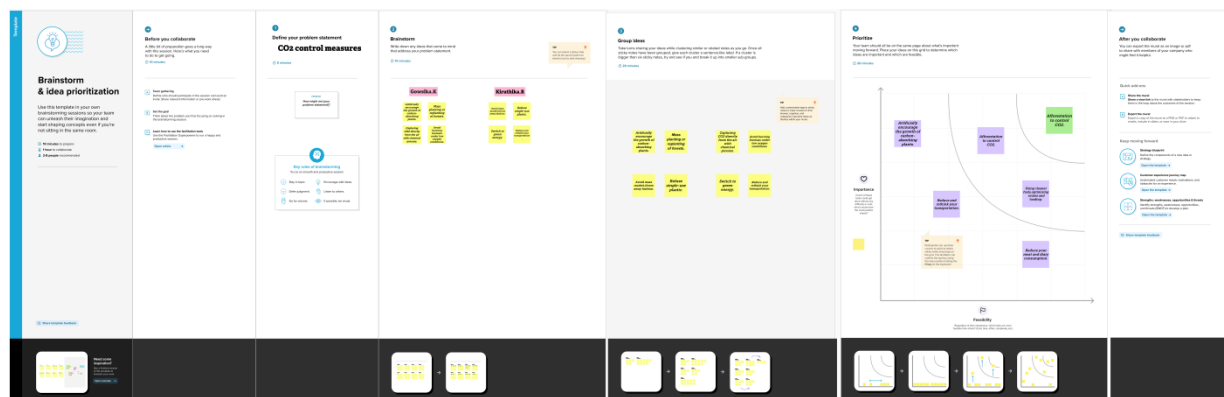

Related concepts and subjects:

Goal, a desired result or possible outcome Intention, the state of intending something or the action intended Motivation, a driving factor for actions, willingness, and goals Determination or resolve Purpose clause, in grammar a dependent adverbial clause expressing purpose of life, questions regarding the significance of living or existence in general Teleology, the philosophical attempt to describe things in terms of their apparent purpose or goal Teleonomy, the apparent purposefulness of structures and functions in living organisms

Graph Types and Visualizations Story

This Story may utilize a variety of graph types and visualizations, including but not limited to line charts, scatter plots, bar charts, heat maps, and geographical maps. These graphs and visualizations help to present data in a narrative format, allowing users to explore and analyze data in a structured and meaningful way. Additionally, a This Story may include text, images, and other interactive elements to further enhance the narrative and provide context to the data presented

CO2 Emission Analysis

Story 1

| ...ting | Total Co2 Emission from 1975 to 2020 | Total Co2 Emission by continents | Co2 Emission due to Internal Reasons | Co2 Emission due to External Reasons | Continents Contribution due to Cement Co2 Emission | Co2 Emission India Vs United states | Co2 Emission in 2020 | Co2 Emission over past 10 Years |

Count... ≡

4 ADVANTAGES & DISADVANTAGES

advantages and disadvantages questions normally give you a statement and ask you to comment on the advantages and disadvantages of that statement.

The problem is that there are 2 different types of advantages and disadvantages essays, each requiring a different approach. If you answer them differently, you risk losing many easy marks.

This lesson will look at each of the three question types and suggest a standard sentence-by-sentence structure for each of them. There will also be sample answers for each of the three questions to help you compare and understand the two approaches

5 APPLICATIONS

An application, also referred to as an application program or application software, is a computer software package that performs a specific function directly for an end user or, in some cases, for another application. An application can be self-contained or a group of programs. The program is a set of operations that runs the application for the user.

6 CONCLUSION

A conclusion is the last part of something, its end or result. When you write a paper, you always end by summing up your arguments and drawing a conclusion about what you've been writing about.

7 FUTURE SCOPE

Future scope is a way to set boundaries on your project and define exactly what goals, deadlines, and project deliverables you'll be working towards. By clarifying your project scope, you can ensure you hit your project goals and objectives without delay or overwork.

8 APPENDIX

In appendix we are attached,
